ELTROTEC // Industrial Endoscopes

- Ø 8mm

- Length: 400mm

- Battery operation

- Warm light source in probe tip

Description:

The Eltrotec SWS is equipped with a light intensive halogen lamp on the probe tip. This enables large cavities to be effectively illuminated. It is used e.g. for inspecting insulation in cavity walls, beams and wooden constructions. This model is also frequently employed for building refurbishment, stone drill holes and for inspecting exhaust gas paths. The integrated accumulator allows the endoscope to be flexibly transported to all deployment sites. Alternatively mains operation is possible.

Photographic documentation is possible with an optional adaptor and a suitable camera, i.e. video camera.

Features:

- Light source in probe tip
- Battery and mains operation
- 12 Watt warm light source
- 60° angle attachment

Benefit:

High light intensity as the light source is integrated in the probe tip.

Application examples:

Inspection of brickwork

Fill level of insulation material

Inspection of heating system combustion chambers

Type SWS
